January 4th, 1918.

Pres. R. A. Falconer,
University of Toronto,
Toronto, Ont., Canada.

My dear Dr. Falconer:-

I am directing the enclosed inquiry to you, asking if you will kindly refer it to the professor in charge of Plant Physiology.

Your very kind greetings addressed to me, care of the University of Maine, on April 17th last, has unfortunately escaped acknowledgment. Even at this late hour, I wish to express my thankfulness for the kindness of your message, and to assure you of the whole-heartedness of the preparations of this country for our part in the defense of the causes of the Allies, which is none less than the cause of humanity and civilization.

I will appreciate it if you will ask the Registrar to change my address to the one above, since I have been in charge of this work for the last six years.

Very cordially yours,

HGB/EC

Henry G. Bell

Graduate in agriculture.

Mr. H. G. Bell,

Postal Telegraph Building,

Chicago, Ill.

Dear Mr. Bell:

I am handing your letter to Professor Faull the head of our department of Botany who will doubtless correspond with you directly in regard to your letter.

I am sorry that there was no notice of your change of address. I will , however, have the Registrar notified with regard to the matter.

Wishing you the compliments of the season,

I am,

Yours sincerely,

President.
